**DETAILED ACTION**

1. This office action is in response to communication filed on 9/21/2004.
2. Claims 1-4, 6-15 and 18-27 are presented for examination.

**Claim Rejections - 35 USC § 103**

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-4, 6-14 and 18-27 are rejected under 35 U.S.C. 103(a) as being unpatentable by Knudson et al. (WO 99/45702 hereinafter Knudson).

With respect to claims 1-3, 7, 9, 12, 15, 19, 21, Knudson teaches a method for marketing (Abstract). Defining a match between a user classification and an incentive (i.e. matching user's interest to advertisements)(page 14, lines 14-31); Receiving from a set-top box user data associated with a user's cable television viewing selections (see Figure 1, item 48); receiving the user's purchase records (i.e. the system receives data related to user's purchases of pay programs)(page 9, lines 5-9); classifying the user in a user classification when the user's cable television viewing selections relate to the user's purchase records (i.e. based on the user's programs viewed and the programs purchased by the user, the system targets advertisements to the user)(page 10, lines 5-21; page 11, lines 22-32; page 14, lines 14-31 and page 19, lines 20 to page 20, lines 1-8 and Figure 16).

With respect to purchase record being made with a credit card. Knudson teaches receiving data related to programs ordered/purchased by the users (page 9, lines 5-9). Knudson is silent as to if the purchases records are for people that have purchased with credit cards. Official notice is taken that is old and well known that credit card is old an well known method used to make purchases in order to provide a convenient method to buy merchandises on credit. It would have been obvious to a person of ordinary skill in the art at the time of Applicant's invention to have included the purchase records to have been credit card purchases because such a modification would allow to better target the customers based on if they have credit.

With respect to claim 4, Knudson further teaches that the user's television viewing selection comprises how much of an advertisement the user views (page 27, lines 29 to page 32, lines 1-10).

With respect to claims 6, 8, 18 and 20, Knudson further teaches further classifying the user based on the user's television viewing selections if the user views advertisements for a product and purchases the product (see Figure 24).

Claims 10, 22 further recites that the user data comprises survey data. Official notice is taken that is old and well known in marketing to ask consumers questions about their likes and dislikes and to record the answers to those questions in order to better target the users based on their answers. It would have been obvious to a person

Art Unit: 3622

of ordinary skill in the art at the time of Applicant's invention to have included survey data in order to obtain the above mentioned advantage.

With respect to claims 11 and 23, Knudson further teaches that the user data comprises a price paid for the product and the time the product was purchased (Figure 8).

Claims 13 and 27 further recites that the incentive comprises a coupon. Knudson teaches providing advertisements. Knudson doesn't necessarily teach that the advertisements are in the form of a coupon. Official notice is taken that is old and well known in marketing to provide coupons to the customers because such a modification would further motivate the customers to make a purchase by providing a discount. It would have been obvious to a person of ordinary skill in the art at the time of Applicant's invention to have included the incentive to be in the form of a coupon in order to obtain the above mentioned advantage.

With respect to claims 14 and 26, Knudson further teaches that the incentive comprises a banner (See Figure 8, item 124).

With respect to claims 24-25, Knudson further teaches that the incentive comprises an image embedded into cable television media content, video program (page 14, lines 3-7).

**Response to Arguments**

5. Applicant's arguments with respect to claims 1-4, 6-15 and 18-27 have been considered but are moot in view of the new ground(s) of rejection.

**Conclusion**

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
